

Havensec Solutions

ABOUT HAVENSEC

Relying on our extensive experience, cutting- edge equipment and infrastructure we provide our clients with a personalised, cost-effective security solution. This holistic security offering, founded upon tried-and-tested best practices, is a pro-active response to the interrelated nature of today's businesses by offering an integrated security framework that provides stronger protection against real threats. Our clients understand that the decisions they make today will impact on their organisation's sustainability over the long-term, and it is for this reason that they have entrusted us with their critical security needs. At Havensec we believe that a business should be built around security, not security around your business.

Proudly BBEE Level 3

SECURITY SOLUTIONS

Here at Havensec Solutions, we work closely with our clients to develop and implement a comprehensive security solution for their unique needs. Our operators are trained by retired military personnel and are trained by the manufacturers who produce the top of the line security equipment.

Our expertise in the field includes guarding, off-site monitoring, pre-employment screening, fleet management, personal bodyguarding, armed escorts, surveillance and information gathering, debugging of private and office spaces, covert cameras, undercover agents and polygraphs, as well as private and civil investigations. This holistic security offering, founded upon tried-and-tested best practices, is a pro-active response to the interrelated nature of today's businesses by offering an integrated security framework that provides stronger protection against real threats.

SERVICES

Civil and Private Investigations

Our team comprises highly skilled investigators and researchers that are at the core of Havensec highly sophisticated investigation techniques and tactics. Our diverse South African client base understands the knowledge that they gain from these services empower them.

Polygraph Services

Professional and Impartial Testing for Business and Personal Related Issues. From Company theft to pre-employment screening, we can assist with our expertise in all aspects of the polygraph and lie detection process whether it be a voice stress or complete polygraph.

Fleet Management

Pro Active fleet and risk management Solutions. We provide real-time video monitoring, and detailed route histories. Live stream videos are monitored 24/7 by our control room operators and rear door locking are done remotely to ensure your cargo reaches its destination safely and intact.

Armed Escorts

Havensec cargo security escorts help safeguard our client's valuable products in transit and has become an essential tactic to counter sophisticated crime syndicates. We will shadow your cargo from the point it leaves your facility until the point it arrives at its destination.

SERVICES

Guarding

Our guarding services can be tailored to your exact needs with a comprehensive need's analysis and onsite training. Our Security Officers are of the highest calibre, tested and vetted before they are employed. They are continually monitored, evaluated and trained to ensure that they operate to the highest industry standards.

Off-Site Monitoring

Off-site monitoring serves as an early warning system, reduce cost of losses as our CCTV control room reacts to the event before the perpetrators have enough time to do damage to your property. Our teams are instantly notified via software of any breach to your property.

Pre-Employment screening

Pre-employment checks are a crucial part of the recruitment process, enabling you to reduce the risk of hiring someone who could cause your business difficulties. We can assist with all your pre-employment and background screening, for you to focus on your core business.

Surveillance and information gathering

Our expertise has been invaluable in analysing the evidence and circumstances. Information obtained to provide evidence that is required to prove or disprove allegations is documented throughout the investigation, while working alongside authorities in criminal-related matters.

Debugging

Our Sweep Teams conduct a detailed physical search, augmented using our advanced technical debugging equipment. These teams have been trained by retired military counter- intelligence personnel and by the original manufacturers from which we procure top-of-the-range debugging equipment.
